Durability and Security

The ULV4 Series provides unmatched reliability and safety in vital applications. Here are some essential features:

Built to Last

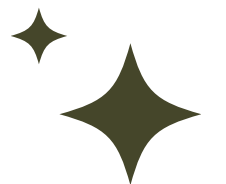

A long life switch with a 19mm panel cutout and an operating life of up to a million cycles (momentary) or 500,000 cycles (latching).

Tamper-Resistant

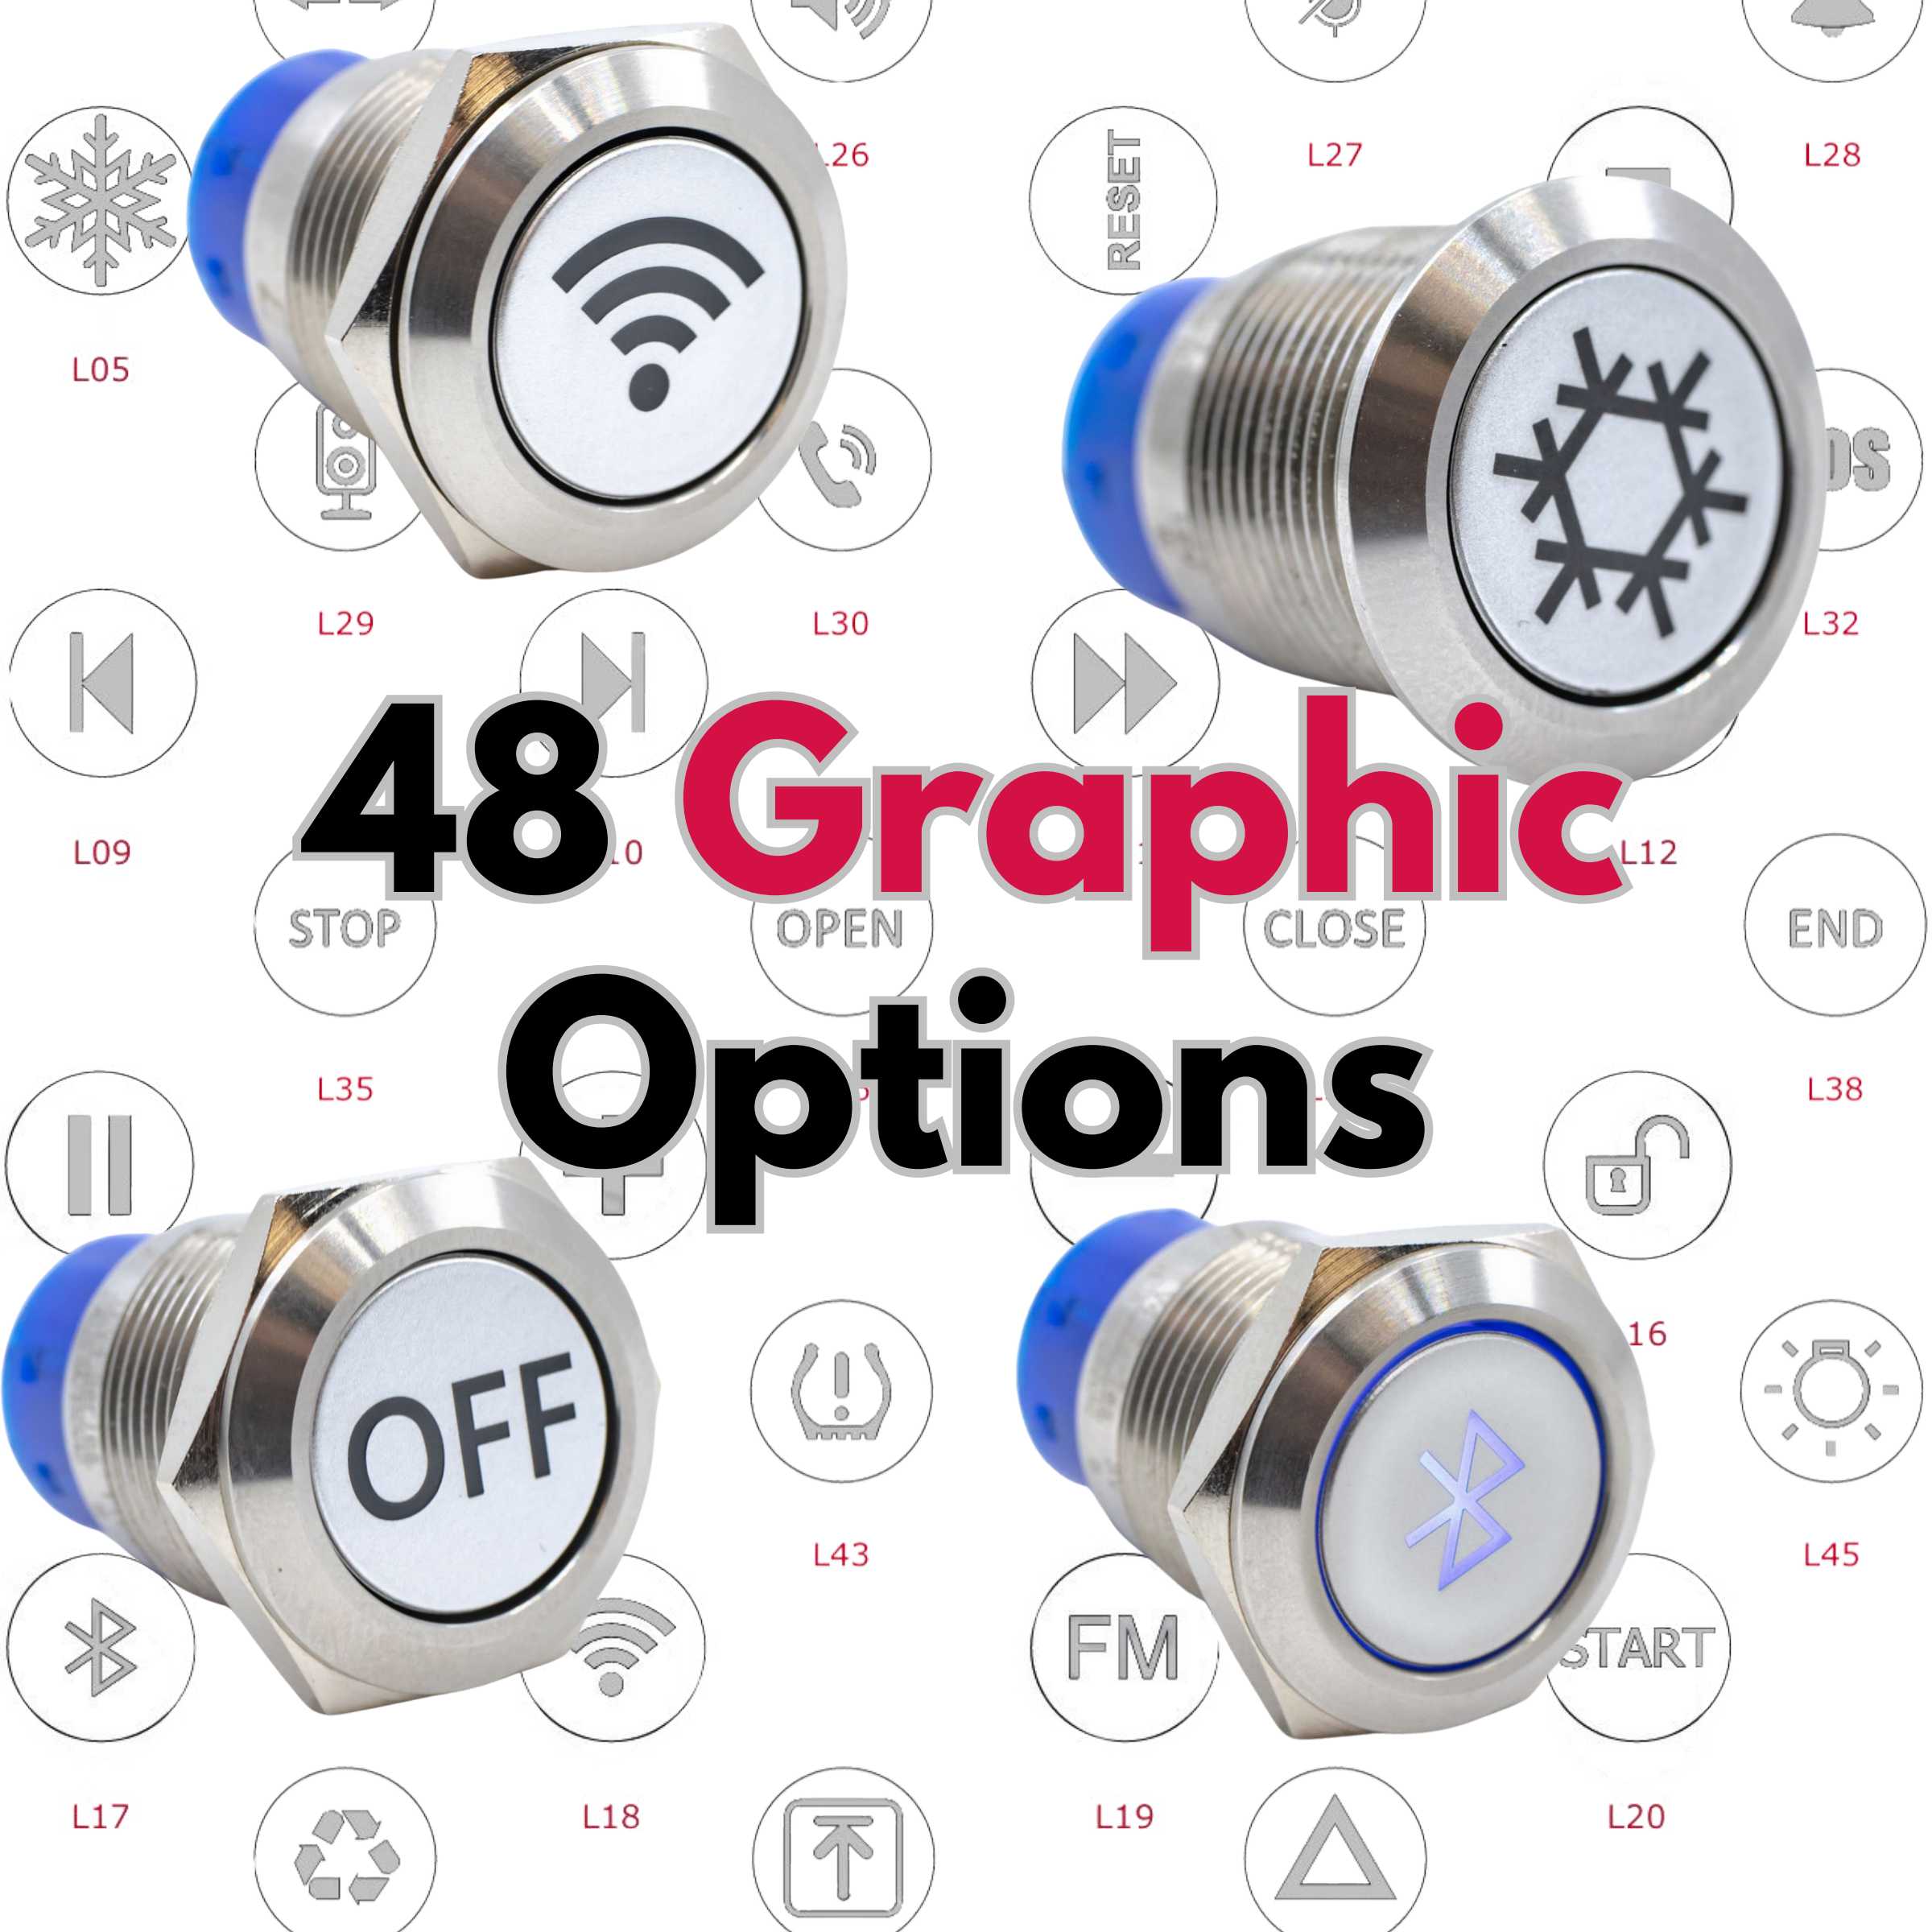

Designed to prevent unauthorized access and sealed to an IP67 rating for moisture and dust protection.

Go-to Choice

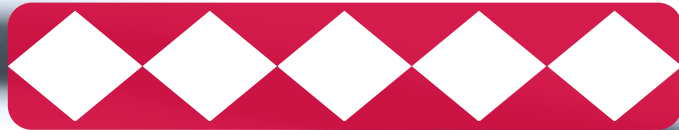

Growing popularity for a variety of applications due to highly customizable features and multiple wire lead assembly options.

48 Graphic Options

UL Certified Anti-Vandal

- Electrical rating of 3A, 250VAC
- Illuminated dot, ring or power symbol in multiple LED color and voltage options
- SPDT or DPDT functionality
- Maintained or momentary pushbutton actuation
