# Durability and Security

The ULV4 Series provides unmatched reliability and safety in vital applications. Here are some essential features:

## Built to Last

19mm panel cutout and a long life expectancy of up to a million cycles (momentary) or 500,000 cycles (latching).

## Tamper-Resistant

Designed to prevent unauthorized access and sealed to an IP67 rating for moisture and dust protection.

## Go-to Choice

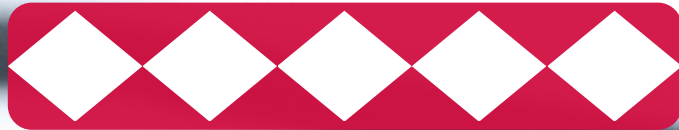

Growing popularity for a variety of applications due to highly customizable features and multiple wire lead assembly options.

***ENERGIZING INNOVATION***
